Hello designer friend!

Here I bring you a compilation with 27 color palettes created exclusively by me.

You can use these color combinations freely in your designs. If you do, I would appreciate it if you would show me the result of integrating that palette into your design: through my instagram profile [@ica_studio_design](#) or by email info@ica-studio.com

However, this collection is the unique and exclusive property of **ICA**. and no one may distribute it without the express authorization of the author.

I hope you find it useful!
